BUNDLE DATALOCKER SOLUTIONS
SAFECONSOLE SUITES

DataLocker®
SIMPLY SECURE

SafeConsole is our remote management platform for secure USB or virtual drives, and for USB port control. SafeConsole Suites give you the most cost-effective options for taking advantage of everything SafeConsole has to offer. With Gold support and powerful enterprise features available, they're a great choice for security pros managing and securing a hundred or more USB drives and USB ports.

SafeConsole PROFESSIONAL

Get SafeConsole DeviceControl plus SafeConsole Anti-Malware, SafeConsole PortBlocker and Gold support. A great option for businesses trying to improve endpoint and USB device security.

SafeConsole DeviceControl

Remotely provision, configure, manage, and audit your fleet of encrypted USB drives.

SafeConsole Anti-Malware

On-board McAfee® Anti-Malware is always on and scans files on secure USB drives, removes or quarantines malware threats, and reports information back to SafeConsole.

SafeConsole PortBlocker

Ensure that people only use approved USB devices to prevent malware intrusion or accidental file loss.

Gold Support

DataLocker standard support plus: Dedicated technical account manager, priority support queue, and advance hardware replacement w/ RMA.

SafeConsole ENTERPRISE

Get everything in SafeConsole Professional plus SafeCrypt, robust enterprise-focused features, and a dedicated cloud infrastructure*. Perfect for enterprises with complex and rigid security requirements.

SafeConsole SafeCrypt

Encrypt and store local or cloud data in an encrypted virtual drive.

Enterprise Features

REST API access, support for SAML 2.0 web-based SSO, SIEM external logging integration, and ZoneBuilder (Secure Auto login/Device restriction).

Cloud Infrastructure

Custom geographic server location, multi-region high availability, and unlimited user audit logs.

*SafeConsole is available as an on-prem or cloud-based solution.
